

Live Instructor-led Online Course

Introduction to AutoCAD Civil 3D

Certificate	:	Yes
Course Type	:	Instructor-Led
Level	:	Essential
Subject	:	Survey and Transportation Design

Course Overview:

The AutoCAD Civil 3D training course is designed for those who have exposure to surveying and civil engineering. The course teaches AutoCAD Civil 3D's dynamic design functionality for rapid development of alternatives of model-based designs. The skills and knowledge acquired can be used also for surveying, geotechnology, hydrology, surveying, construction, and even architecture.

Learning Outcome:

Upon completion of this course, you will learn ways to organize project data, create & analyze surfaces, create a parcel layouts, road corridors, and layout of networks. Key topics include:

Contents of Computer-Aided Land Survey

Transportation Design

Report Generation

Earthwork Calculation

Quantity Takeoff

Pipe Layout

Design Rules

BOM

Plotting

Ideal for:

Civil, structural engineering and architectural students / professionals

Structural engineers and detailers

Highway design professionals

Course Fees: USD 285

Payment Details : 100% Advance payment to be done.
